CAPABILITIES

To deliver on our commitment to provide improved performance & efficiency, Accurate Industries offers a full suite of turnkey capabilities:

CONSULTATION & DESIGN

All material flow systems are unique in some way. We apply a consultative & educational approach to solution design

SYSTEM & SPARE PARTS SUPPLY

We can supply all elements, from full systems, through to spare parts. We represent several leading brands & have secure supply chains for most others

INSTALLATION & COMMISSIONING

Once a new system is purchased & delivered, our team of qualified & highly experienced technicians will install & commission on site

CALIBRATION & TESTING

Even in the most challenging of conditions & applications our technical team have the required calibration & testing skills, equipment & experience

REPAIRS, SERVICE & MAINTENANCE

Accurate Industries can maximise system lifetime & reduce total cost of ownership by providing cost effective repairs, service & maintenance

QUALITY REPORTING

We understand the critical importance of reporting for material flow systems & regularly consult with clients to ensure reports are providing exactly what is needed

RECOMMENDATIONS

To meet our goal of improved efficiency & performance for our customers, our site condition & test reports include recommendations to enable optimal ongoing performance

REMOTE SUPPORT

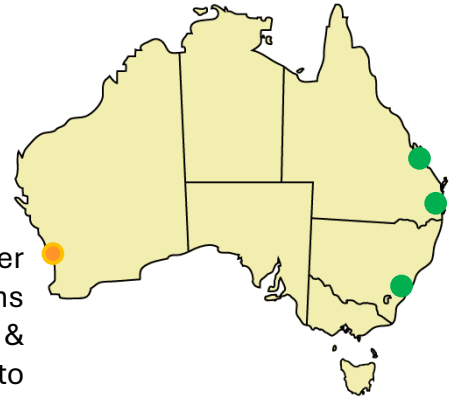

Our deep levels of site experience & equipment knowledge allow Accurate Industries to enable customers with over the telephone fault diagnosis & corrective assistance

RESOURCES & REACH

3 x Locations + 1 Support Agent National Coverage

- **Brisbane:** 4 Technician/Engineering + 2 Sales/Admin Staff
- **Rockhampton:** 2 Technician/Engineering Staff
- **Sydney:** 1 Technician/Engineering Staff
- **Perth:** Technician/Engineering Support Partner

To underpin our dedication to the performance of customer systems, Accurate Industries has established 3 service locations in key regions on the East Coast & has formed a strategic service & support partnership in Perth. This enables Accurate Industries to provide rapid & cost-effective support across the entire country.

COMPLIANCE & QUALIFICATIONS

To make sure we can get the job done on site, Accurate Industries insists on strict adherence to all site & job specific requirements.

- All site staff have Current Coal Board Medical Certificates
- All site vehicles are mine site compliant
- All site staff are equipped with mine site compliant PPE & clothing
- 100% success rate for site inductions
- All site staff hold trade certificate qualifications
- All site staff are fully NMI registered

BRANDS WE SERVICE

Schenck Process | EMC | ADS Detection
Thermo Ramsey | Control Systems Technology
Dings Magnetics | Process Automation/Real
Time Instruments (RTI) | TecWeigh

OUR PRODUCTS

Accurate Industries specialise in the supply, installation & ongoing maintenance & efficiency, of material flow measurement equipment for mines & quarries:

BELT WEIGHERS

WEIGH FEEDERS

TRAIN LOAD OUT SYSTEMS

MAGNETIC SEPARATORS

TRAMP METAL DETECTORS

OUR CUSTOMERS

OUR TEAM

Accurate Industries has a collective 100+ years of experience with specification, supply, installation/commissioning & ongoing maintenance of weighing & measuring instruments. We are proud to be owned & lead by people with real life “On The Tools” experience.

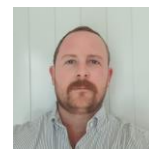

Matthew Keane:

Managing Director.
18+ Years Weighing & Measurement Industry Experience. Certificate III Electronics /Instrumentation, Licenced NMI verifier, Diploma Management.

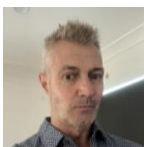

Brad Leeming:

Service Director.
16+ Years Weighing & Measurement Industry Experience. Certificate III Electrical Fitter Mechanic, Licenced NMI verifier.

Peter Leeming:

Projects Director.
11+ Years Weighing & Measurement Industry Experience. Certificate III Electrical Fitter Mechanic, Licenced NMI verifier.

Peter Gensch:

Senior Technical Specialist.
30+ Years Weighing & Measurement Industry Experience. Certificate III Electrical / Instrumentation Technician, Diploma Electrical Engineering Industrial Control, Cert III in Programmable Logic Controllers, Cert III Electrical Trade, Cert IV in Computer Technology, Cert IV in Electronics and Communications.

Tim Francis:

Business Development.
30+ Years Weighing & Measurement Industry Experience. Certificate III Electronics Technician, Certificate III Instrument Fitter, Associate Diploma Electrical Engineering, GAICD.

WHY DO CUSTOMERS CHOOSE ACCURATE INDUSTRIES?

TECHNICAL EXPERIENCE – WE KNOW THE EQUIPMENT

The collective technical experience of Accurate Industries exceeds 100 years, specifically in specialist heavy industrial process measurement. That level of knowledge enables us to provide repairs, support & advice for not only our own equipment but for many other brands as well.

INDUSTRY EXPERIENCE – WE KNOW THE COMMERCIAL LANDSCAPE

Accurate Industries was born out of the resources sector & as such has a deep understanding of the commercial requirements for working in this sector, from organised & informed scheduling, appropriate insurance cover, appropriate site compliances through to industry accepted payment terms & more.

CUSTOMER FOCUS – OUR GOAL IS YOUR SUCCESS

Accurate Industries has a Customer First attitude! We take a brand agnostic approach when designing solutions to ensure that our offerings produce industry leading outcomes for the client regardless of manufacturer brand or model. Our capabilities have been built to deliver full customer support for all stages of the product/system life cycle, regardless of age or brand.

VALUE – WE DELIVER

We understand that clients purchase equipment & service to achieve an outcome. At Accurate Industries, we keep this at the forefront of our thinking to ensure that in addition to providing the highest quality equipment & services, we always set & then strive to exceed performance & efficiency targets.

100% AUSTRALIAN OWNED & OPERATED

Accurate Industries is proud to be 100% Australian owned & operated, providing the best service & products.
